Movement Field Notes

A reflection sheet for an adult reader, learner or facilitator. Use a fictional scene or permitted footage; physical participation is optional.

Fictional example: A player pauses before a pass. Notice: the player stopped for two seconds. Possible explanations: waiting for space, watching a teammate. Next question: what happened immediately before the pause?

01 Scene

Describe the action, task and setting. Avoid identifying information.

02 What I noticed

Record actions, directions, timing and spatial relationships. Leave motives and diagnoses out.

03 Possible interpretations

Write at least two explanations. What else might be happening?

Original Aetherion learning material. Print and share unchanged with attribution for non-commercial learning.

04 Missing context

What happened before and after? What is outside the frame? Whose perspective is missing?

05 A comparison

Which difference would you like to inspect? What else changes at the same time?

06 Next question

Write one answerable question, and what you would need to answer it.

07 Limits

What cannot be concluded from these notes?

Keep your notes for yourself or discuss an anonymised example. This is an educational reflection sheet, not an assessment or individual treatment. No information is sent to Aetherion.
